PROFILE

An experienced Marine Technician having worked in the Marine Industry for over 20 years. Professionally skilled in vessel maintenance and repairs, including both rigging and welding work, I am a qualified small craft yacht surveyor providing insurance and pre-purchase surveys.

Further experience also includes cargo surveying which is my main role within SG Surveys, covering cargo and commercial marine surveys on the East Cost of the UK. Duties include loadmaster and yacht loadings, project cargo, out of gauge, and containerized cargo.
